Be Ready "Before The Moment"

Special Backpacks

T490 Rotation 360™

The revolutionary Rotation360™ backpack allows you to access your photo gear by rotating a belt pack through a hole in the bottom of the backpack, and return it again when desired, without having to take off the backpack. This gives you the comfort of a backpack with the convenience and accessibility of a beltpack.

For extensive product features please visit the Rotation360™ website: www.rotation360.com

Dimensions: Backpack: 28 x 50 x 24cm. Beltpack: 28 x 19 x 15cm.

Weight: Backpack with beltpack: 2.5-3.4kg.

T190 Glass Taxi™

Designed for carrying big lenses especially for airport travel. Lightly padded lens case disguises large lenses and can be carried as either a shoulder bag or a backpack.

FEATURES: ● Holds 400 f2.8 or 500 f4 lens with hood reversed ● 300 f2.8 lens with hood extended ● 300 f2.8 with hood reversed attached to DSLR body ● dividers ● waistbelt slot (Pro Speed Belt™ can be attached) ● seam-sealed rain cover ● tuck away shoulder straps ● side stretch pocket for monopod attachment ● Business card holder ● Tripod Attachment

External Dimensions: 21.5 x 21.5 x 43cm. **Weight:** 3.6kg.

*Current carry-on restrictions at 1st February 2008. Note: Current carry-on restrictions may vary with different airlines and at different airports nationally and internationally. We highly recommend you check with your airline what your carry-on allowances for both weight and size are prior to your trip.
